

ring size guide

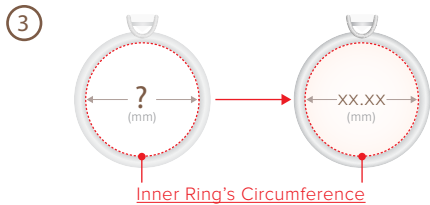

ring measurement instruction

① Print out this page at 100% (ACTUAL SIZE or 1:1 Ratio)

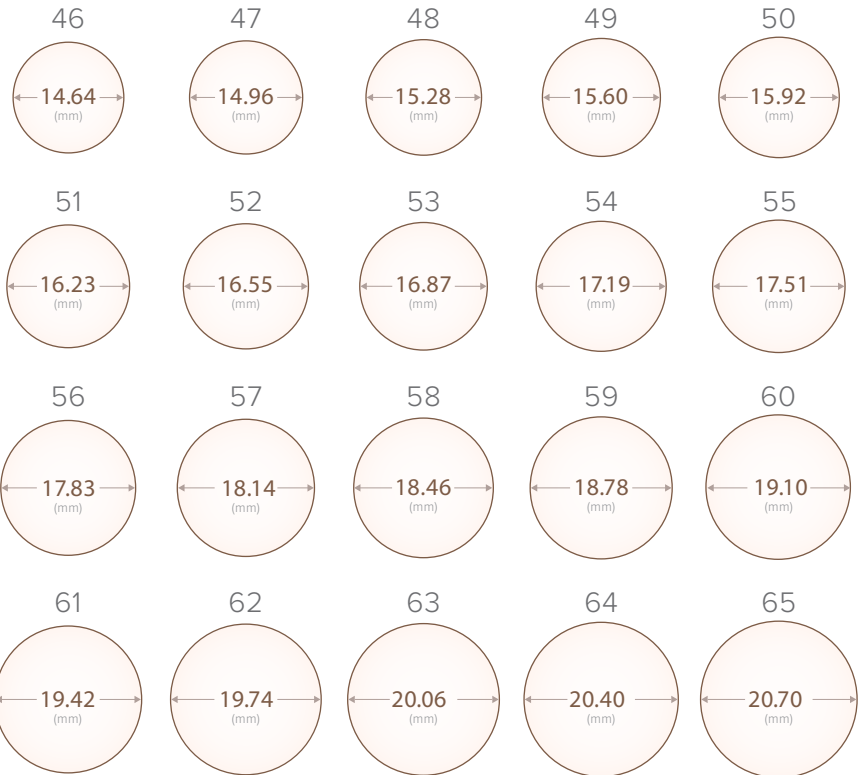

② For result accuracy, please measure the scale below and make sure that it is exactly 50 mm or 5 cm.

****If the measured result is not exactly 50 mm or 5 cm. Please recheck your printer setting and print again.****

Place your chosen ring onto the circles to find the matching size. Once the ring's inner circumference match the circle, you have found the correct ring size.
